

Spelman College Course Plan for Skye Phillips

Health Science Major | Academic Coursework, 2023–2026

Academic Year	Fall Semester	Spring Semester	Summer / Experiences
Freshman 2023–2024	<div>1. African Diaspora & the World I (4)</div> <div>2. Big Questions Colloquia (1)</div> <div>3. First-Year Composition (4)</div> <div>4. First Year Experience I (1)</div> <div>5. Introduction to Health Sciences (2)</div> <div>6. Pre-Calculus Math I (3)</div>	<div>1. African Diaspora & the World II (4)</div> <div>2. Organismal Form and Function (4)</div> <div>3. African Dance Forms (1)</div> <div>4. Elementary Spanish I (4)</div> <div>5. First Year Experience II (1)</div>	<div>• Applied Calculus I (4)</div> <div>• General Psychology (4)</div>
Sophomore 2024–2025	<div>1. Cell Biology (4)</div> <div>2. General Chemistry I (3)</div> <div>3. Elementary Spanish II (4)</div> <div>4. Introduction to Public Health (4)</div> <div>5. Spelman-Braven Leadership (3)</div> <div>6. Wintermester: General Statistics (4)</div>	<div>1. 3D Methods and Materials (4)</div> <div>2. General Chemistry I Lab (1)</div> <div>3. Principles of Computing (4)</div> <div>4. Health Science Internship-Practicum (2)</div> <div>5. General Physics I (4)</div>	<div>• Intermediate Spanish I (4)</div> <div>• General Chemistry II (3) - KSU</div> <div>• General Chemistry II Lab (1) - KSU</div> <div>• Pediatric Cardiology Shadowing - Wellstar Health System (May-June 2025; 70+ hours)</div>
Junior 2025–2026	<div>1. Cross-Cultural Perspectives on Gender (4)</div> <div>2. Organic Chemistry I (4)</div> <div>3. Organic Chemistry Lab I (1)</div> <div>4. Human Anatomy & Physiology I (4)</div> <div>5. Introduction to Epidemiology & Evidence-Based Practice (3)</div> <div>6. General Physics II (4)</div>	<div>1. Biochemical Principles (3)</div> <div>2. Discovering Computer Science (4)</div> <div>3. Race, Gender and Medicine (2)</div> <div>4. Health Informatics (2)</div> <div>5. Human Anatomy & Physiology II (4)</div>	<div>• Intermediate Spanish II (3) - KSU</div> <div>• UNC-Chapel Hill undergraduate public health research (June–July 2026; ~350 hours)</div>
Senior 2026–2027*	<div>1. Organic Chemistry II (4) - In progress</div> <div>2. Organic Chemistry Lab II (1) - In progress</div> <div>3. Advanced Medical Microbiology (3) - In progress</div> <div>4. Advanced Medical Microbiology Lab (1) - In progress</div> <div>5. Research and Evaluation in the Health Sciences (4) - In progress</div>	<div>1. Finished Degree</div>
